### **Handbook to Happiness**

This is not just another "Christian psychology" book. The author, in departing from traditional psychological approaches, leads distressed people directly to the Cross of Christ - not just for the eternal life Jesus promised, but for the abundant life, here and now. Dr. Solomon calls his approach "Spirituootherapy", a biblically based program that draws on the Holy Spirit's work of regeneration and the appropriation of the new life in Christ available to us.

### **The Ins And Outs of Rejection**

Dr. Solomon's second book clearly shows the role that rejection plays in the development of mental and emotional symptoms of which depression is perhaps the most common. The latter half of the book concentrates on the dynamics of Spirituootherapy and is a sequel to Handbook to Happiness. It is a book addressed to those who are hurting and includes Dr. Solomon's personal testimony. It can also be used by those who would help others in a lay or professional capacity. Those who have appropriated Christ as Life will find it most helpful in understanding the role of the will in maintaining victory. The simplicity of the presentation of rejection makes it possible to understand the breakdown of relationships as well as the neurotic symptoms suffered by the individual.

### **Rejection Syndrome and the Way to Acceptance**

Building on his second book, The Ins and Out of Rejection, Dr. Solomon parallels the topics of acceptance and identity in showing God's answer in Christ to the lack of meaningful love and misplaced identity. In centuries gone by, believers practiced spiritual direction or mentoring for those in defeat and experiencing difficulty in life before the onslaught of psychology and the church's near capitulation to it in the last half of this century. In 1967, God called him to revive such teaching in a counseling format under the name, "Spirituootherapy", which has become generally known as exchanged life counseling. He pioneered the approach and founded Grace Fellowship International (GFI), now based in Pigeon Forge, TN, as a vehicle for spiritual ministry and training others. The approach is detailed in his third book, Handbook for Christ-Centered Counseling.

### **Handbook to Happiness And You - A Spiritual Clinic**

Many believers and churches are floundering in defeat and confusion as the rite of passage is negotiated from a Judeo-Christian society to a pagan culture. Christianity no longer enjoys a "most favored" status among religions as the "faith of our fathers" and has been rejected in favor of secular humanism with its many proponents in the private and public sectors. Dr. Solomon provides the thoughtful believer with a tool for self and church evaluation and also charts a way out of the wilderness of emotional, mental, and behavioral conflicts through individual and corporate renewal. While the world system is camping on the word, recovery - a never-ending process, the Holy Spirit majors in transformation of the life by renewing the mind.

## **Handbook for Christ-Centered Counseling**

A handbook that shows you: how to understand your own identity in Christ and enjoy personal victory; how to train Christian workers in the most basic discipleship truths for effective ministry; how to use a step-by-step process to lead someone in a crisis to victory in Christ; and how to use another "Romans Road" to lift defeated saints up to "fullness of joy".

## **Handbook for Soldiers of the Cross**

Handbook for Soldiers of the Cross is an attempt to show what was, what is, and what may come, in ministering on an individual basis at the beginning of the 21st century. We have known a society that was friendly to Christianity for 200 years which is no longer the case; secular humanism has made deep inroads into all aspects of our lives, eroding the spiritual vitality of our country. Added to this, the possibility of continued terrorism could drive many to the Church for hope and help due to adverse living conditions. Taken together, many soldiers of the Cross must be called up by the Church for basic training to meet the possibility of unprecedented need. This book shows how ordinary laymen have been and can be used of God to participate in a great harvest of souls as self-strength proves futile. We must have a standing army rather than attempting to train and equip soldiers of the Cross when the conflict can no longer be denied—thus, the Handbook for Soldiers of the Cross, A Call to Arms for the Church.

## **Handbook of Exchanged Life Poetry**

This book is a collection of 92 poems written between 1968 and 2003, spanning 35 years of ministry. As Dr. Woodward writes in his Foreword: "When we observe something happening that does not make sense, we say it is 'without rhyme or reason'. Many struggling believers have been led by the Lord to be counseled biblically through Grace Fellowship International. What a joy it is when the Holy Spirit illumines them about the reality and significance of their identification with Christ. Through abiding in Him they learn what 'life more abundantly' is all about.

In these poems, we have a testimony of rhyme and reason. The verses from my dear friend and mentor, Dr. Solomon, are more than greeting card sentiment; they convey profound doctrinal, spiritual, and clinical insights. The use of biblical references indicates how these poems flow from the author's commitment to learning and living God's Word. The studious reader can gain greater devotional benefit from the poems by looking up the Scriptures and pondering the lyric's message."

## **For Me To Live Is Christ**

For Me To Live Is Christ is a beginning course which is suitable for class use or for individual study. It assumes that the believer has little background in understanding how the Cross can become experiential in his life but has received the Lord Jesus Christ as Savior and Lord. Once it is mastered, it will also be helpful preparation in leading another believer to freedom in Christ. It will be found helpful to study the author's first two books, Handbook to Happiness (Tyndale) and In and Out of Rejection along with it.
